INTERIM DIRECTORS' REPORT

The Directors present their report and the condensed consolidated financial statements for the six-month period ended 30 April 2026.

PRINCIPAL ACTIVITIES

AX Real Estate Group ('the Group') is involved in the letting of a diverse portfolio of real estate to subsidiary companies of AX Group p.l.c. and to third parties.

REVIEW OF THE BUSINESS

The Board of Directors is pleased to present the financial results for the six-month period ended 30 April 2026.

During the period under review, the Group registered EUR7,684,730 (30 April 2025: EUR7,132,236) in total revenue, an increase of 7.7% over the same period last year. This increase was principally attributable to the rent generated by the Verdala Wellness hotel, which opened in August 2025, as well as by higher variable rental income generated from the other hospitality properties, reflecting improved operational performance from the hotels.

	30 April 2026		30 April 2025	
	EUR		EUR	
Hospitality	6,102,700	80%	5,366,599	77%
Care Home	897,499	12%	879,775	13%
Offices	286,132	4%	387,666	6%
Residential	103,684	1%	149,201	2%
Warehousing	232,215	3%	223,995	3%
	7,622,230		7,007,236	

The majority of properties available for rent were leased out during both periods. Rental income from AX Group and related parties accounted to EUR7,275,214 (30 April 2025: EUR6,519,404) representing 95% (30 April 2025: 93%) of the rental revenues generated by the Group. The rental income by property type can be analysed in the adjacent table.

Other operating costs amounted to EUR400,800 (30 April 2025: EUR409,300). Staff costs including directors' remuneration amounted to EUR153,825 (30 April 2025: EUR164,267).

During the period under review, the Group registered an operating profit of EUR7,161,248 (30 April 2025: EUR6,656,573) representing a consistent operating profit margin of 93% (30 April 2025: 93%). The operating profit achieved is in line with the projected performance for the period under review.

Net finance costs amounted to EUR3,232,228 (30 April 2025: EUR3,196,860). This includes interest on debt securities in issue, bank borrowings and interest due on related party loans.

Profit before tax during the period under review amounted to EUR3,929,020 (30 April 2025: EUR3,459,713).

The Verdala project in Rabat was successfully completed in 2025, with the Verdala Wellness Hotel commencing operations in August 2025. This marked a significant milestone as the property transitioned from a development phase into an income-generating asset. The hotel has introduced a distinct wellness-focused concept within the Group's hospitality portfolio, strengthening its positioning in a specialised segment of the luxury market and laying the foundation for sustained performance going forward.

The Virtu Heights residences, which form part of the integrated development, are currently in their final stages of completion and are expected to compliment the Verdala Wellness Hotel offerings in the coming weeks.

A gross dividend of EUR0.02586 (gross prior to 15% top-up tax where applicable) per ordinary share equivalent to EUR7,094,347 was declared and approved during the Annual General Meeting in April 2026. The dividend was paid on 14 May 2026.

REVIEW OF THE BUSINESS – CONTINUED

In March 2026, the Group executed the final deed for the acquisition of a parcel of land in Naxxar, located adjacent to the Hilltop Complex. During the same month, the Group also entered into a promise of sale agreement for the purchase of an additional adjoining parcel of land.

Financial Key Performance Indicators			Net assets at period end stood at EUR147,832,050 compared to EUR151,740,224 as at 31 October 2025. The movement represents the profit for the period less the dividend declared in April 2026. The Group's balance sheet remains sound with a gearing ratio of 53.4% in line with the Group projections.

During the period, the Company obtained shareholder approval for the implementation of a share buy-back programme of up to EUR1,000,000 from retained profits, over a period of one year from approval. The programme is subject to defined volume and pricing limits, including a maximum daily acquisition limit per shareholder and a price cap not exceeding the Company's net asset value per share, and will be carried out in compliance with applicable laws and Capital Market Rules. Shares acquired under the programme will not be cancelled.

OUTLOOK FOR THE REST OF THE FINANCIAL YEAR AFTER THE REPORTING PERIOD

As of the reporting date, the Group continues to maintain a high level of occupancy across its rental portfolio, with the majority of properties under contract.

The hospitality segment has continued to perform strongly during the shoulder months, with operational results across the Group's hotel portfolio remaining in line with, or exceeding, expectations. This sustained performance supports the achievement of variable rent targets and reflects the strength of the Group's market positioning and operational strategy.

Following its opening in August 2025, AX Hotel's management has embarked on a strategy to position the Verdala Wellness Hotel within the luxury wellness segment, with a clear focus on establishing the Verdala Wellness Hotel as the leading wellness hotel on the island ensuring enhanced operational excellence and sustainable returns.

The Virtu Heights residences, which form part of the integrated Verdala development, are currently in the final stages of completion and are expected to become operational as an annex to the Verdala Wellness Hotel in the coming weeks, further enhancing the overall offering and supporting future revenue generation.

The Group is also progressing with the second phase of the Qawra project, with works scheduled to commence in September 2026. This phase, which includes the demolition and reconstruction of AX Sunny Coast Resort & Spa, as well as the redevelopment of AX Sunny Coast Lido and the Luzzu Complex, forms part of the Group's broader capital investment programme and is expected to further strengthen the Group's asset base and long-term growth prospects. The Group is currently in discussions with banking institutions to secure partial financing for this phase of the development.

GOING CONCERN

Having made an appropriate assessment of going concern as discussed in Note 3 to these financial statements, the Directors, at the time of approving these interim condensed consolidated financial statements, have determined that there is reasonable expectation that the Group has adequate resources to continue operating for the foreseeable future. For this reason, these financial statements have been prepared on a going concern basis which assumes that the Group will continue in operational existence for the foreseeable future and will meet its financial obligations as and when they fall due.

INTERIM DIRECTORS' REPORT - CONTINUED

PRINCIPAL RISKS AND UNCERTAINTIES

The Group is exposed to risks inherent to its operations and can be summarized as follows:

1. Strategy risk

Risk management falls under the responsibility of the Board of Directors. The Board is continuously analysing its risk management strategy to ensure that risk is adequately identified and managed. The Audit Committee regularly reviews the risk profile adopted by the Board of Directors.

2. Operational risks

The Group's revenue is mainly derived from rental income charged to related parties and hence the Group is heavily dependent on the performance of the AX Group. The Group regularly reviews the financial performance of the AX Group of companies to ensure that there is sufficient liquidity to sustain its operations.

3. Legislative risks

The Group is governed by a number of laws and regulations. Failure to comply could have financial and reputational implications and could materially affect the Group's ability to operate. The Group has embedded operating policies and procedures to ensure compliance with existing legislation.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Six-month period ended 30 April 2026

1. GENERAL INFORMATION

The interim condensed consolidated financial statements (“Interim Financial Statements”) of AX Real Estate p.l.c. (“the Company”) and its subsidiaries (collectively “the Group” or “the Estates Group”) for the six-month period ended 30 April 2026 were authorised for issue in accordance with a resolution of the Directors on 26 June 2026.

AX Real Estate p.l.c. (C 92104) is a public limited liability company incorporated in Malta. The Company acts as the holding company of the Estates Group within the AX Group. The Group is involved in the letting of a diverse portfolio of real estate to subsidiary companies of AX Group p.l.c. and third parties. The Company’s registered office is at AX Group, AX Business Centre, Triq id-Difiza Civili, Mosta, MST 1741, Malta.

2. BASIS OF PREPARATION

The Interim Financial Statements have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting* and in terms of the Capital Markets Rules 5.81 to 5.84. These Interim Financial Statements for the six-month period ended 30 April 2026 are being published pursuant to Capital Markets Rule 5.74 issued by the Malta Financial Services Authority and the Prevention of Financial Markets Abuse Act, 2005. In terms of Capital Markets Rule 5.75.5, this interim report has not been audited or reviewed by the Group’s independent auditors.

The financial information of the Group as at 30 April 2026 and for the six-month period then ended reflect the financial position and the performance of AX Real Estate p.l.c. and all its subsidiaries. The comparative amounts reflect the position of the Group as included in the audited financial statements ended 31 October 2025 and the unaudited results for the six-month period ended 30 April 2025.

The Interim Financial Statements have been prepared under the historical cost convention, except for investment property which is stated at fair value. The same accounting policies, presentation and methods of computation have been followed in these Interim Financial Statements as were applied in the preparation of the Group’s annual financial statements for the year ended 31 October 2025.

The Interim Financial Statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group’s annual financial statements as at 31 October 2025, which form the basis for these Interim Financial Statements. These Interim Financial Statements are intended to provide an update on the latest complete set of annual financial statements and accordingly they focus on new activities, events and circumstances.

3. GOING CONCERN

Profitability

The Group has reported operating profit of EUR7,161,248 (30 April 2025: EUR6,656,573) in the current period representing 93% (30 April 2025: 93%) of revenue. The increase in revenue corresponds to the commencement of the new lease on the Verdala Wellness Hotel in Rabat, as well as enhanced performance in the other hotel properties.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – CONTINUED

Six-month period ended 30 April 2026

3. GOING CONCERN – CONTINUED

Financial position

As at reporting date, the Group's current liabilities exceeded its current assets by EUR13,556,289 (31 October 2025: EUR12,594,204) whereas the Group's total assets exceeded its total liabilities by EUR147,832,050 (31 October 2025: EUR151,740,224).

The current liabilities of the Group include balances of EUR7,951,226 (31 October 2025: EUR11,561,607) as at 30 April 2026 owed to the intermediate parent and other related parties. The intermediate parent and other related parties have confirmed in writing that they shall not request the repayment of amounts due to them until the Group is in a financial position to be able to do so. Furthermore, the Group has the continued backing of its intermediate parent which has committed to providing the necessary financial support to ensure adequate liquidity is maintained, even in the absence of operational inflows.

The Group is involved in the leasing of a diverse portfolio of real estate to subsidiary companies of AX Group p.l.c. and third parties. The majority of the current operative commercial leases are those entered into between the Group and operating and trading companies within the AX Group. Consequently, the risks inherent to AX Group's operations will affect the ability of those companies to operate efficiently, which in turn could have an effect on their ability to pay the rent due and or may result in lower variable rental income in the case of lease agreements featuring a combination of fixed and variable rent components. Management of the AX Group has prepared a cashflow forecast for the AX Group, as disclosed in the AX Group p.l.c.'s business update below and has concluded that the AX Group will be able to sustain its operations over the foreseeable future in a manner that is cash flow positive.

Liquidity

During the period, management took various steps to retain a high level of liquidity in line with the Group's policy. As at reporting date, the Group had aggregate banking facilities of EUR40,976,460 (31 October 2025: EUR43,023,370) which were fully drawn. In addition, the Group had access to an undrawn loan facility of EUR867,210 from a related party.

As at reporting date and up to the date of this report, the Group was in compliance with all financial and non-financial covenants stipulated in the bank loan sanction letters. Furthermore, the Group is anticipated to continue adhering to these covenants throughout the period covered by the cash flow forecast.

As at 30 April 2026, the Group had a gearing ratio of 53.4% (31 October 2025: 52.1%).

Management has prepared a forecast considering significant events and transactions that have occurred and are expected to occur subsequent to period end. This also considers the servicing of current and projected debt, including debt at variable rates.

Conclusion

Accordingly, based on information available at the time of approving these condensed financial statements, as a result of the strength of the Group's financial position and performance, as well as the AX Group's financial position and performance and availability of financing, the Directors have reasonable expectation that the Group will meet all its obligations as and when they fall due over the foreseeable future and therefore, that the going concern basis adopted for the preparation of these condensed consolidated financial statements is appropriate.

3. GOING CONCERN – CONTINUED

AX Group p.l.c.'s business update

The AX Group is primarily engaged in four main business sectors namely, Hospitality, Care, Construction and Estates but is also involved in property development and renewable energy.

The Hospitality division delivered a strong performance during the period, with all hotels exceeding their projected results.

The Care division recorded a 14.6% increase in revenue compared to the corresponding period last year. The independent living apartments at Hilltop Gardens remained fully occupied throughout the period, reflecting sustained demand for the Group's healthcare services.

Revenue from third-party projects within the Construction division decreased by 33%, primarily due to delays in the commencement of certain projects.

During the first six months of the year, the Group recognised EUR24 million in property sales, largely attributable to the sale of Verdala Terraces residential units. In addition, further promise of sale agreements were entered into in respect of these units, supporting a positive outlook for the coming financial year.

As at 30 April 2026, the AX Group maintained a healthy financial stance with a gearing ratio of 44.7% (31 October 2025: 46.9%).

The AX Group will be investing an estimated EUR90 million to complete the second phase of the Qawra project, which includes the demolition and reconstruction of AX Sunny Coast Resort & Spa and the redevelopment of AX Sunny Coast Lido and Luzzu Complex. The AX Group is currently in advanced discussions with local banks to secure additional financing facilities, which are expected to be finalised in the coming weeks.

The EUR15 million 3.25% unsecured bond issued by AX Group p.l.c. maturing on the 20 December 2026 is planned to be redeemed through internally generated cash flows.

Management of the AX Group has prepared a cashflow forecast for the AX Group and has concluded that the AX Group will be able to sustain its operations over the foreseeable future in a manner that is cash flow positive.

Management of the AX Group has also considered a stress tested scenario to assess the AX Group's resilience and ability to handle unforeseen challenges. Under all scenarios tested, the Group is expected to continue to have sufficient liquidity relative to the funding available to it. Management also notes that a number of the AX Group's properties are unencumbered and could potentially be used as a guarantee in obtaining additional financing from banks should the need arise.

4. APPLICATION OF NEW OR REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

Standards, interpretations and amendments to published standards effective during the reporting period.

During the financial period under review, the Group adopted new standards, amendments and interpretations to existing standards that are mandatory for the Group's accounting period beginning on 1 November 2025. The adoption of these revisions to the requirements of IFRSs as adopted by the EU did not result in changes to the Group's accounting policies.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – CONTINUED

Six-month period ended 30 April 2026

4. APPLICATION OF NEW OR REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS – CONTINUED

Standards, interpretations and amendment to published standards that are not yet effective.

Certain new standards, amendments and interpretations to existing standards have been published by the date of authorisation for issue of these condensed consolidated interim financial statements, that are mandatory for the Group's accounting periods beginning after 1 November 2025. The Group has not early adopted these revisions to the requirements of IFRSs as adopted by the EU and the Group's Directors are of the opinion that there are no requirements that will have a possible significant impact on the Group's financial statements in the period of initial application.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In preparing these Interim Condensed Consolidated Financial Statements, management has made judgements and estimates that affect the application of accounting policies and that can significantly affect the amounts recognised. The significant judgements made in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

Estimates and judgements are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances.

6. FAIR VALUE MEASUREMENT

All financial instruments for which fair value is measured or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets and liabilities
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing the categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Group's policy is to recognise transfers into and out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer. There were no transfers between levels during the period.

7. REVENUE

In the following table, revenue is disaggregated by revenue category. Revenue falling under IFRS15 *Revenue from Contracts with Customers* and IFRS16 *Leases* is recognised as follows:

	1 November 2025 to 30 April 2026 (unaudited) EUR	1 November 2024 to 30 April 2025 (unaudited) EUR
Sale of property and real estate	62,500	125,000
Rental income	7,622,230	7,007,236
Total Revenue	7,684,730	7,132,236

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – CONTINUED

Six-month period ended 30 April 2026

8. INCOME TAX

The interim period income tax is based on the Maltese corporate tax rate of 35%. Income taxes for the interim reporting period represent a best estimate of the weighted average annual income tax rate expected for the full financial year.

9. EARNINGS PER SHARE

Earnings per share is based on the net result for the period divided by the weighted average number of ordinary shares in issue during the period. The weighted average number of shares in issue during the period amounted to 274,336,700 shares (30 April 2025: 274,336,700 shares).

10. INVESTMENT PROPERTY

During the reporting period, the Group registered additions to its investment property amounting to EUR6,870,823 (30 April 2025: EUR7,880,016). No further movement in investment property occurred during the reporting period.

Valuation process

The Group's investment properties are revalued by professionally qualified architects or surveyors on the basis of assessments of the fair value of the property in accordance with the international valuation standards and professional practice. In the years where an independent valuation is not obtained, management reworks the fair value of the property by verifying all major inputs to the independent valuation report, assessing any property valuation movements when compared to the prior year valuation report and holds discussions with the independent valuer, as necessary. Internal methods are therefore aligned with those used by external valuers.

The Group entered into long-term lease agreements of 20 years with the respective operating companies of the AX Group responsible for the operation of the relevant investment properties with effect from dates ranging between 1 July 2021 to 1 August 2025. For all properties, given the contractual obligations under the leases, their current use equates to the highest and best use.

The Group's plans for its properties in Qawra envision an additional phase, one which will see the redevelopment of the Luzzu and Sunny Coast lido areas, and the demolition and rebuilding of the Sunny Coast Resort & Spa. The Group has the necessary planning permit for the Sunny Coast Resort and Spa redevelopment and the full development permit for the redevelopment of the Luzzu and Sunny Coast lido areas. The Group is actively engaged in planning the redevelopment of these phases. The Group has no further restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

In March 2026, the Group executed the final deed for the acquisition of a parcel of land in Naxxar, located adjacent to the Hilltop Complex. During the same month, the Group also entered into a promise of sale agreement for the purchase of an additional adjoining parcel of land.

A portion of the investment properties owned is encumbered as they serve as securities for bank loans.

The Group's investment property has been determined to fall within level 3 of the fair value hierarchy.

Climate-related considerations

For investment properties, which are measured at fair value, the Group considers the effect of physical and transition climate-related risks and whether these could impact the value of the Group's properties.

Management has evaluated potential climate-related risks that could impact the value of the Group's investment properties, and these considerations have been included within the valuation process. These include possible physical risks from climate-change such as potential damage from extreme weather events, or transitional risks such as changes in property attractiveness due to shifting climate conditions and increasing requirement for energy efficiency of buildings.

Management has concluded that, based on the information currently available, these potential climate-related risks are not expected to have a material impact on the value of the Group's investment properties.

The Group remains vigilant and committed to continuously monitoring these climate-related considerations and will adjust the investment property valuations as necessary to reflect any significant changes in these risks or in their potential impact on our business

Details of the investment property and information about their fair value hierarchy as at the end of the period:

12. FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The Group's financial assets and financial liabilities comprise trade and other receivables, and cash and cash equivalents, as well as trade and other payables, bank borrowings and debt securities in issue. All financial assets and financial liabilities are classified as measured at amortised cost.

Fair values

The fair value of non-current trade and other payables, and bank borrowings, is not materially different from their carrying amounts particularly due to re-pricing. The fair values of non-current debt securities in issue can be defined by reference to the quoted market price on the Malta Stock Exchange.

At 30 April 2026 and 31 October 2025 carrying amounts of the Group's current financial assets and current financial liabilities approximated their fair values due to the short-term nature of these financial instruments.
